

BX1813D

Overview

- 1.7 Cubic Feet
- Double Wall Insulation
- Kanthal A-1 Elements
- 208 or 240 Volts
- 30 Amp Breaker Required
- Bartlett Controller

Product Description

The Tuckers Cone Art model BX1813D is a very versatile kiln. It is used in doll studios, the pottery studios and classrooms. It fires easily to a true cone 10.

It is a double insulated kiln with 2.5 " premium brick plus 1" of block insulation.

This double insulation saves approximately 30% in electricity costs and has a safer, cooler jacket.

Kanthal A-1 elements, stainless steel jacket and fittings, and excellent Cone Art craftsmanship all are standard.

The Bartlett electronic controller is mounted in an angled, easy view control panel for precise control. The Tuckers Cone Art Model BX1813D is an excellent choice if you want the best cone 10 kiln built today.
