

School-Master

K-12 School Kilns

One-Touch Intuitive Kiln Control • 6.7 to 10.2 Cubic Feet • Cone 6

Five
Year
Warranty

FEATURES

Temperature Rating: All models rated for Cone 6 (2230°F, 1220°C) except for the SM28T-3, 208V/1 phase which is rated for Cone 5 (2170°F, 1190°C).

Loading: Lid position, when open, rests at an angle away from the kiln without lid supports so that the loading is easy and unobstructed.

Hinge: Spring loaded for “feather-lite” easy opening.

Stand: Heavy-duty 14 gauge full solid stand with multiple bends for strength. Bolt on legs. Feet protectors included.

Assembly: Three 9” high sections stack on top of each other. Easy to assemble. Bottom is reversible.

Construction: Stainless steel wrapped around brick with 3 clamps on each section. All stainless screws.

Insulation: 2-1/2” or 3” K23 firebrick depending on model.

Brick Coating: Reflective coating protects brick and reduces dusting.

Element Holders: Hard ceramic element holders protect brick.

Elements: Six heavy-duty graded elements.

Element Connections: Proprietary all-ceramic element connection block makes changing elements easy.

Control Panel: All controls and components are mounted in a hinged control panel/element connection box. A layer of insulation and separation plate helps keep the controls cool. Control box can be easily removed for servicing. On/off switch and control fuse are included.

Control: One-Touch™ Intuitive Kiln Control easily fires the bisque and glaze programs typically used in schools. It is also easy to adjust simple parameters like cone, delay, hold, heat-up and cool-down rates. Also four custom ramp/hold programs with 8 segments each.

Relays: Mercury free relays.

Thermocouples: Type K 8 gauge with ceramic protection tubes prevent metallic dusting in kiln and result in longer thermocouple life.

Peephole Plugs: Non-fragile solid ceramic with heat-locked head. 1” diameter full-view non-tapered. One per section.

Power Cord/Plug: 50 Amp NEMA 6-50 six foot cord included for one phase; 50 Amp NEMA 15-50 six foot cord included for three phase.

Instructions: Complete visual instructions with control reference, process information, assembly, troubleshooting, and parts list. In addition web videos show how to assemble the kiln and how to fire it. (See hotkilns.com/videos)

Warranty: Special Five-Year Limited Warranty. (See hotkilns.com/five-year-warranty).

UL Listing: c-MET-us listed to UL499 standards.

One-Touch™ Intuitive Kiln Control

The School-Master Kiln Series was designed in conjunction with the One-Touch™ Intuitive Kiln Control specifically with busy school teachers in mind. One touch and you are ready to fire the bisque and glaze programs most often used in K-12 schools. No programming is necessary, simple adjustments are easy (like cone level, heating and cooling speed, hold time and delay time), yet sophisticated programming is also possible. Together with features such as hard ceramic element holders, a protected thermocouple, and the most efficient spring hinge on the market (with full-access loading), the School-Master Kiln Series is the standard for the unique demands of the classroom.
